infinIT Services / CyberProof Joint Venture für Advanced Security Operations

The Forrester Wave™: Emerging Managed Security Services Providers (MSSPs), Q3 2018

The 10 Providers That Matter Most And How They Stack Up

by Jeff Pollard and Claire O'Malley

September 18, 2018

CyberProof's AI BOT, SeeMo received the top spot with a score of **5 out of 5** in the **AI, ML and Automation** category

Emerging MSSPs know their customers. CyberProof is focused on our client's needs and was recognized by Forrester with a **perfect 5** score in the **Go to Market**

Service delivery. CyberProof knows that our clients are struggling to retain their top cyber security talent and capability. Our **flexible service model** augments our client's capabilities leveraging our unique platform. Forrester recognized this with a top score of 5 in the **Talent Management**

Emerging MSSPs put cyber risk at the forefront and CyberProof is leading here as well. Forrester recognized this with a **top score** of 5 in the **Analysis and Priority: Application/Hunting**

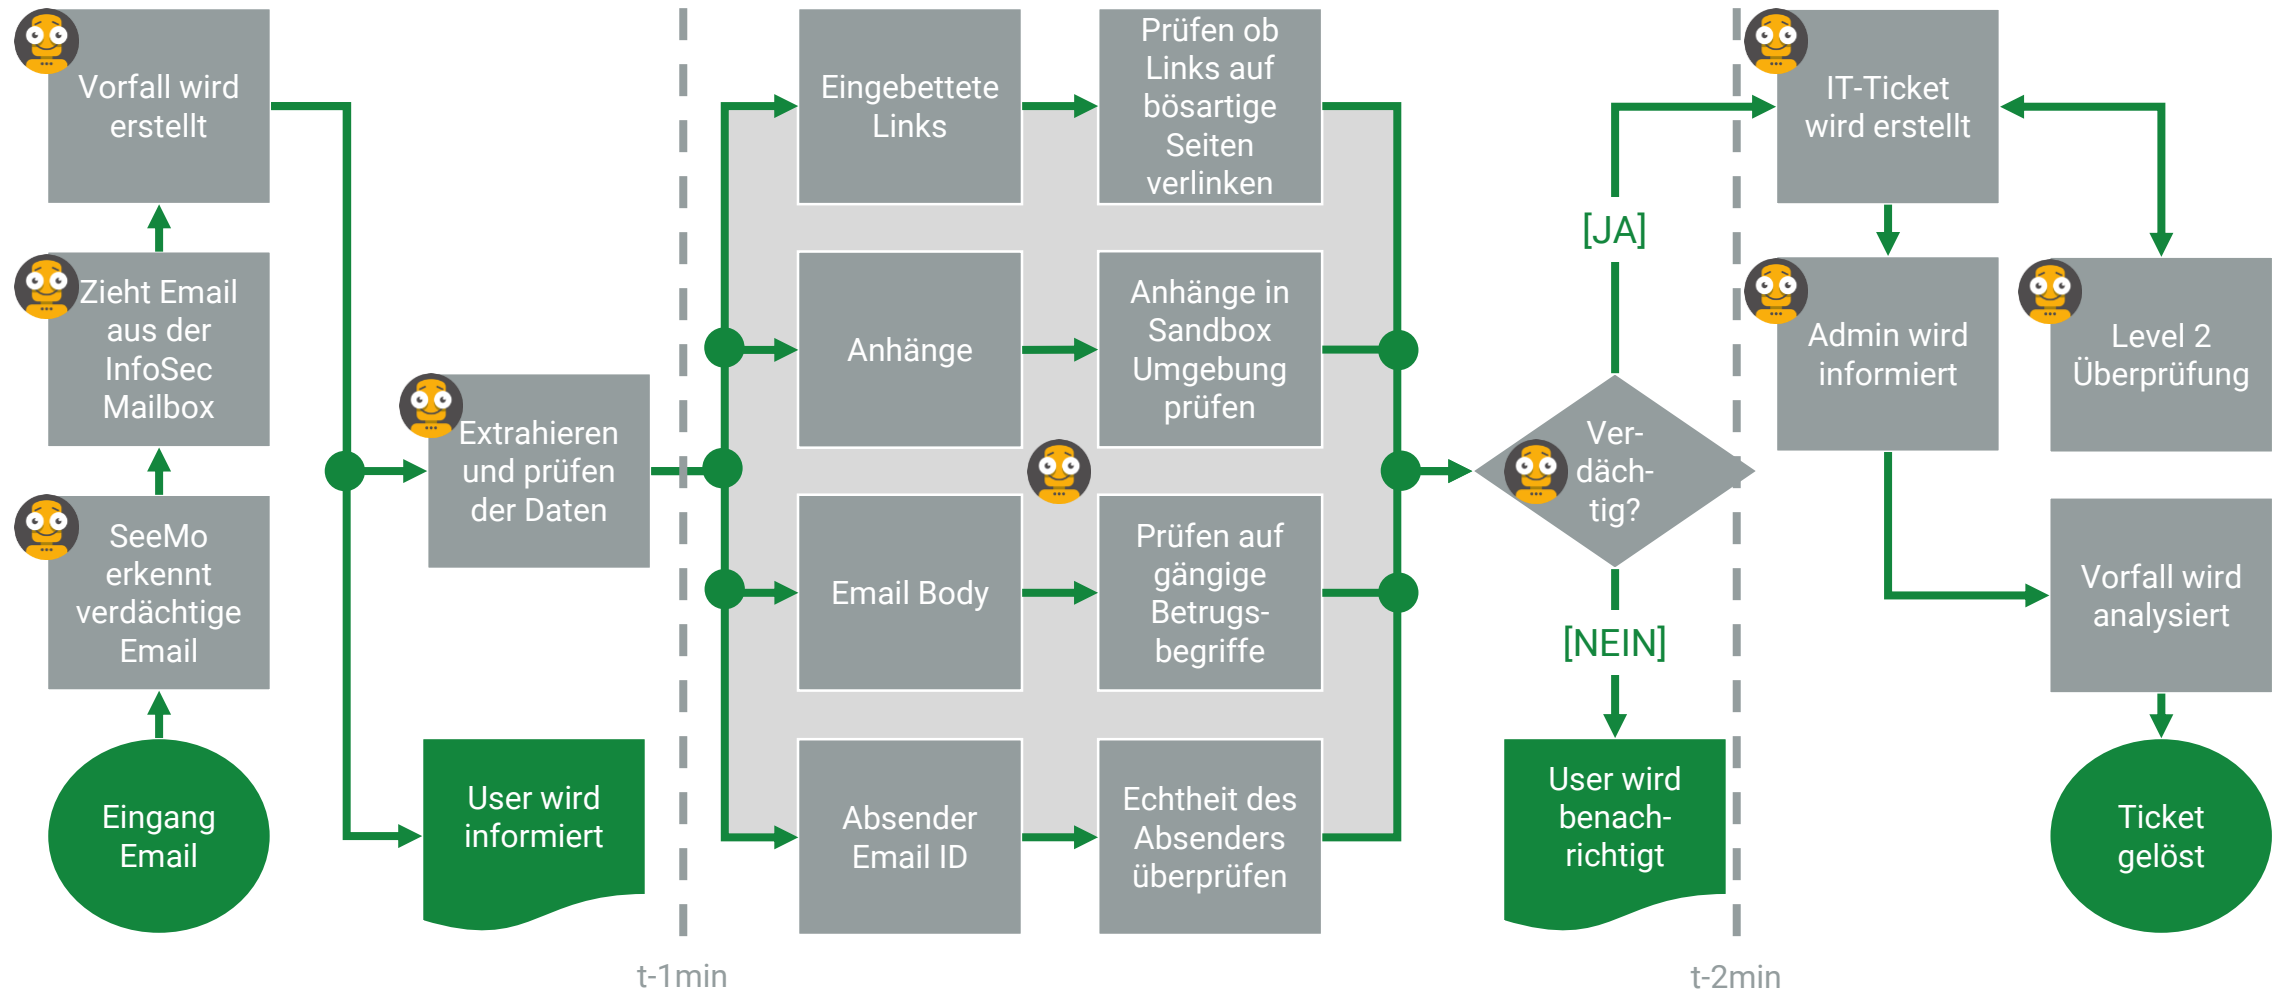

THE FORRESTER WAVE™

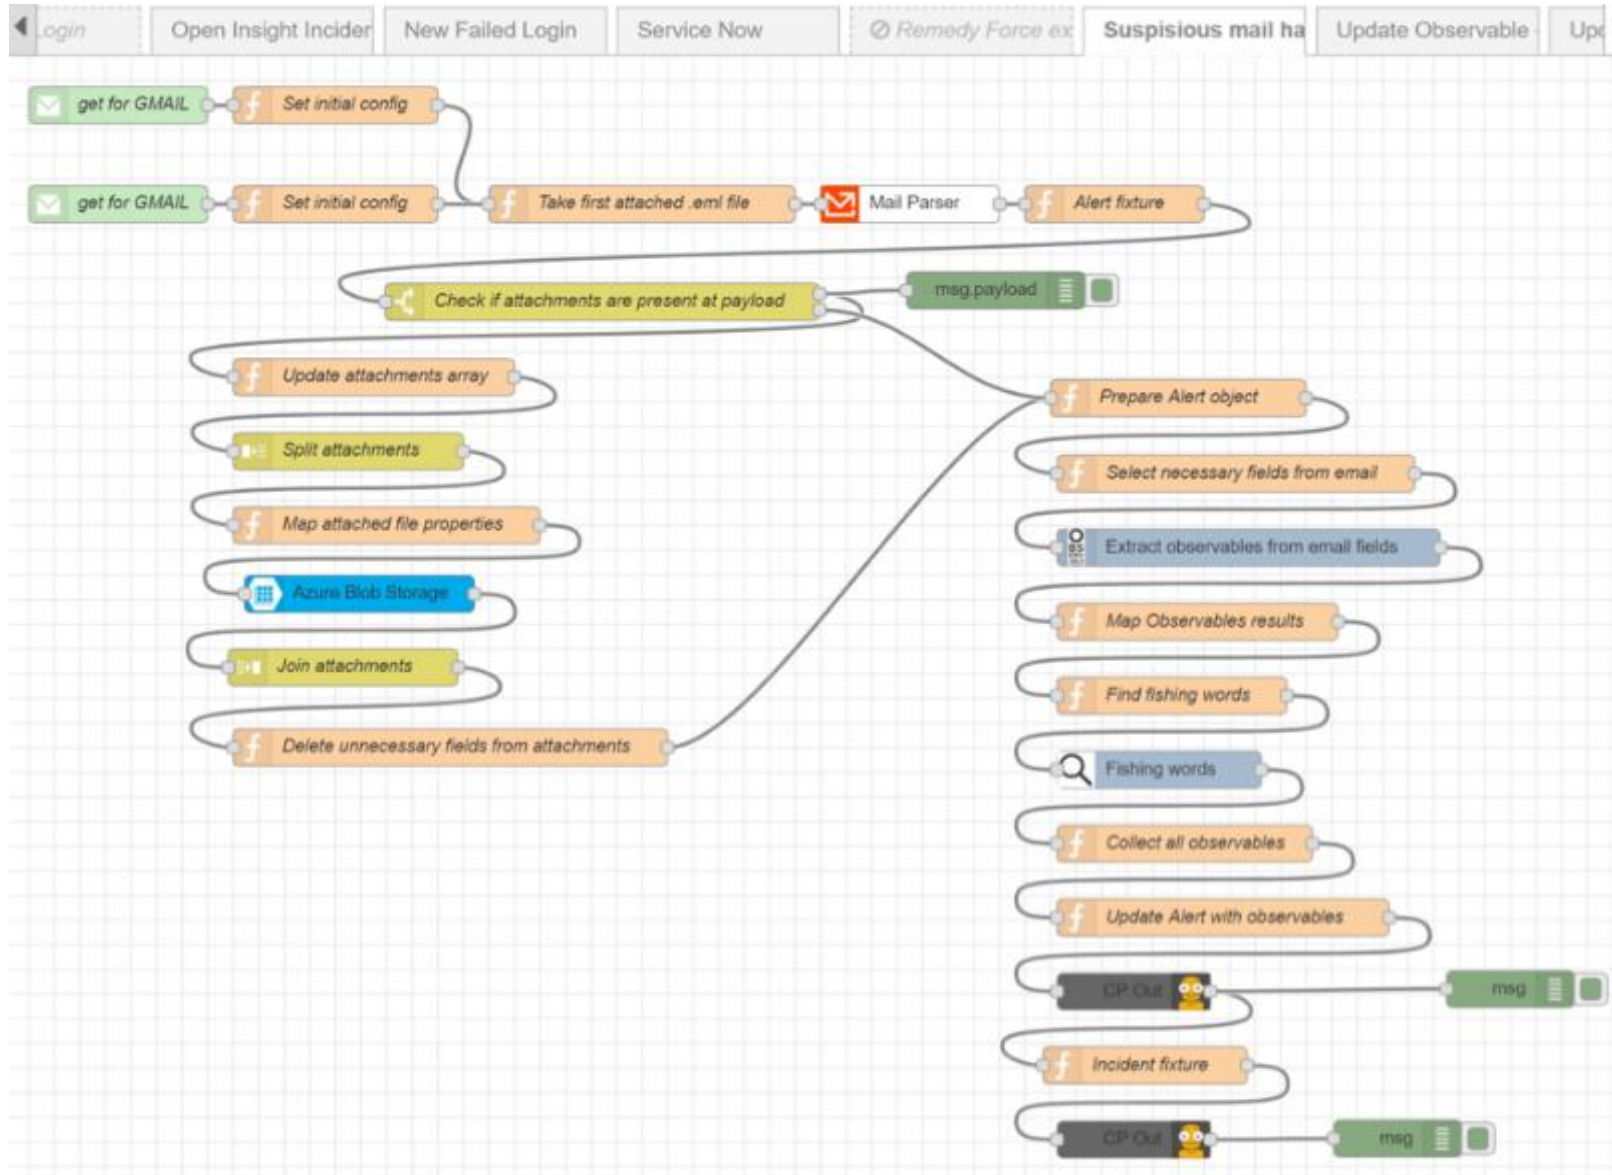

Emerging Managed Security Services Providers (MSSPs)
Q3 2018
